Subject: RE: presentation for Corporate Affairs Conference

hi, rick. if it is possible, do you think you could put one slide in on initial thinking on how wsa will approach ETS? not our position on the science or our policy -- because that's still under discussion -- but ETS is something corporate affairs is very involved and i know there would be interest. i understand, however, if this is premature. thanks.

Hi Rick,

If you could please email me your slides for your presentation at the Corporate Affairs conference by tomorrow. I would like to have them on my computer for back up purposes.

Thanks again.
Colleen
